- **Contributing to renewables integration**
- **Long-term commitment (regulatory and/or contractual)**

LAST REMARKS AND CONCLUSIONS

- LNG plays different roles in different countries
- LNG contributes to SoS, diversification and competition
- LNG contributes to renewables integration
- LNG provides high level of flexibility
- The price of gas infrastructure is less than 10% of the final price → allows competition on the supplying side and lower prices for consumer
- LNG volumes to EU are increasing (2010/2009: +25 %)

LAST REMARKS AND CONCLUSIONS

- Significant investments on LNG going on
- Great uncertainty about planned projects
- Sound Investment Climate is required
 - Regulatory stability
 - Speeding- up permitting and authorisation procedures
 - Same level-playing field between r-TPA and exempted
- Everyone in EU should have access to LNG
